(2) Nationwide citizens' assembly on energy costs - How to counteract the problem of energy poverty in Poland?

FILM SUMMARY

CITIZENS' COUNCILS ON CLIMATE (PL)

PROJECT OBJECTIVES

- **to include the inhabitants** in the process of deciding the climate policy of their municipality
- **supporting municipalities** in the creation of strategic climate documents with the participation of inhabitants
- **pilot use and adaptation of a participation tool** that is not very popular in Poland: citizen juries and citizens' assemblies for the needs of small and medium-sized cities.

CITIZENS' COUNCILS ON CLIMATE (PL)

ACTIVITIES:

1. Phase of the Citizens' Climate Lab (November 2021-August 2022) - consultation processes for strategic climate related documents carried out in 4 municipalities using the citizens' jury method.

- survey on the topic
- simplified sortition of participants
- expert diagnosis of local policies and definition of key issues for the council
- local citizens' councils (education, deliberation and online voting on recommendations)

1. Phase of the National Climate Citizens' Meeting (August 2022-December 2023) - approximately 20 citizens' councils with expert support and using the materials developed after the Laboratory.
